

DUAL SKIN EXHAUST

LAYERS OF PROTECTION

Our dual skin exhausts are made from the highest quality material and craftsmanship to ensure lasting performance.

We design and manufacture an extensive range of exhaust systems and components, all guaranteed to fit and build to last.

We supply most OEM exhaust systems from suppliers such as Caterpillar, Hitachi, Komatsu, Liebherr, Volvo and more. All of our OEM exhaust systems are manufactured to fit your machine's existing brackets and footprints, which means easy removal and replacement.

THE MAMMOTH SOLUTION

Protect your people and equipment

Longer running, lasting and better performing engines

Customised solutions to suit any machine

Remove and replace to suit existing brackets

DUAL SKIN FEATURES

- Made from corrosion resistant heavy duty aluminized steel
- Able to reduce touch surface temperatures <math><150^{\circ}\text{C}</math>
- Internal insulation up to 25mm thickness
- Low thermal expansion coefficient when compared to stainless steel, it is less likely to deform under heat stress

DUAL SKIN BENEFITS

- Superior touch surface temperature reductions
- Delivers engine protection (keeps engines running, lasting longer and performing better)
- Easy and convenient bolt-on replacement parts that fit existing brackets
- Custom design solutions
- Quality Australian made parts.

WHY USE MAMMOTH?

Mammoth is a world-leading equipment and power system solution provider. We offer a broad range of innovative bespoke and universal solutions to the mining, transport, rail, industrial, agriculture and marine industries globally.

Our success is based on delivering innovative integrated solutions, our ability to build strong relationships, and most importantly, strengthen our customers' businesses.
